

A ma fille Manon,

RBg Paris

Rose of bulgaria

Rbg Paris exclusive copyright 2015 ©

Rbg Paris, Rose of Bulgaria established in 2005 in Ecos, France, is a new and modern manufacturing company owing its rapid and stable growth in recent years to a dynamic, young and highly-professional team backed by the long-lasting tradition in rose oil extraction and cosmetics industry.

The manufacturing company is in the region of Bulgarian Rose valley. The experience and knowledge about the marvelous power of natural extracts that we gained and improved over the years, together with the diligent work and research of our ambitious laboratory staff, helped us develop and create, especially for you, series of personal care products, exclusively based on natural components that take care of your skin in the way it would like – with the power of natural remedies, which provide rejuvenation and vitality without loading the skin.

What makes our products so special is the use of pure natural rose oil and rose water, coming straight from the distilleries in the world-famous Rose Valley. Known for its healing and beautifying properties, this fragrant elixir flowing from the heart of Bulgaria has been esteemed from ancient times to the present.

We combine knowledge of the healing power of herbs and their special effects on the skin with modern ingredients and formulations. Our selected top quality line is manufactured using the most advanced techniques and the purest, natural ingredients. Everything we create meets all requirements and is of consistent quality.

Perfume

Lilyrose, eau de parfum,
