

Certificate of analysis (COA) for alcohol and control plan (1/2)

Naturality of Alcohol :

Agri-alcohol® Surfin 96 Ethyl Alcohol of agricultural origin, denatured, 0.1% TBA + 10 ppm, denatonium benzoate, and its organic version, Agri-alcohol® BIO, are produced by fermenting raw materials of plant origin using microorganism cultures (Saccharomyces cerevisiae), followed by distillation steps that do not alter the product's characteristics. These distillation steps correspond to separation steps. A denaturant with a tracer function (TBA) A denaturant with a tracer function (TBA) and a denaturant intended to render it unfit for consumption (denatonium benzoate) are then added. We hereby certify that our Agri-alcohol® and Agri-alcohol® BIO alcohols have an indicative composition according to the following table:

HS Code	3302.9010
Formula Name & code	Alcohol Surfin 96 Ethyl Alcohol of agricultural origin, denatured, 0.1% TBA + 10
Laboratory manager	M.F.
Date	08/09/2025
Document number	A2558333
Chinese name (Alcohol denat.)	Bis 乙醇

Cas	Flow chart	Substance	Function	INCI	% (m/m)	Origin
64-17-5	Alcoholic fermentation of sucrose followed by solvent-free distillation, 96%	Ethanol	Natural solvent	Alcohol	93,750	Vegetable Agriculture
75-65-0	Additive	Tert-butanol	Denaturant	Tert-butanol	0,095	Petrochemistry
3734-33-6	Additive	Denatonium benzoate	Denaturant	Denatonium benzoate	0,001	Petrochemistry
	Natural due to distillation	Aqua (Water)	Natural solvent		6,150	
				Total natural origin	99,900	
	Cosmetic effect & proof	Not concerned				
	Type of product	Perfumery & cosmetic industry only				
	How to use	DO NOT SWALLOW, AVOID CONTACT WITH THE EYES, DO NOT USE FOR CHILDREN UNDER 3 YEARS OLD, KEEP AWAY FROM HEAT, THIS PRODUCT IS FLAMMABLE, FOR EXTERNAL USE ONLY.				

STORAGE = To be stored in a cool and dry location. Protect from light. Cellar undergrown is adapted.  
MEASURES IN CASE OF FIRE Use CO2 foam or dry powder extinguisher.

Certificate of analysis (COA) for alcohol and control plan (2/2)

Oil+Alcohol batch number	AN1966	Made in France origin certified
Quantity	20000 Liters	
Appearance	Transparent liquid with a pure odour of alcohol	
Expiry date - PAO (PAO = Period after opening)	Over 36 months, close the container tightly after use to prevent the product from evaporating.	
Colorant	No colorant	
Microbiological	Product with alcohol > 20%	
Nanomaterials	No	
Toluene	No	
BSE	No animal test or origin, agriculture origin	
Benzene	≤ 2 ppm (Part per million)	

Pesticides - Heavy metals - Mycotoxins

Based on the analytical results, we certify that Surfin 96° alcohol and Surfin 96 organic alcohol fully comply with existing European regulations, and that all parameters are below the detection limits of commonly used analytical methods. See detail in our control plan.

Environment

Certifies that the Ethyl Alcohol of agricultural origin that we supply to you is produced through fermentation using microorganism cultures followed by distillation steps that do not alter the product's characteristics.

These distillation steps correspond to separation steps.

According to the DGCCRF (French Directorate General for the Protection of the Environment and the Environment), our product "Surfin 96° Ethyl Alcohol of Agricultural Origin" falls under the "natural origin" classification.
